Strategy

The Fund seeks long-term growth of capital by investing in growth companies attractively ranked by the Adviser's comprehensive value-centric ranking process. This process evaluates companies on the basis of growth, valuation, business momentum, investor sentiment and management IQ. Because there are no preconceived biases regarding sectors or industries, the Fund may often own attractive investments absent from other growth strategies. In addition, the emphasis on valuation and cash flow metrics helps manage the risk of being too momentum driven.

Performance data quoted represents past performance and does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the Fund may be lower or higher than the performance quoted. For most recent month-end performance figures, visit www.meritageportfoliofunds.com or call Shareholder Services at 855-261-0104.

Fund performance information shown includes the reinvestment of dividend and capital gain distributions, but does not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund Shares.

¹The Adviser has contractually agreed to limit expenses at least until December 31, 2019. Although the Fund is no-load, investment management fees and other expenses still apply.

Fund Highlights

The investment team seeks to add value through bottom-up security selection, owning a portfolio of companies whose earnings growth is not fully “priced in.”

The search for attractive growth investments is not constrained by benchmark or arbitrary sector, market-cap or geographic parameters. Up to 35% of the Fund’s assets may be invested in companies outside the U.S.

The Meritage investment team has been successfully managing assets for institutions and individuals in separately managed accounts for over 10 years, using this specific strategy. Total firm AUM as of 6/30/2018 is \$1.6 billion.

Manager Commentary

- » The Growth Equity Fund had a positive return for the quarter though trailing the performance of the Russell 1000 Growth Index for the quarter and the 12 months ended June 30, 2018.
- » An underweight in the Consumer Staples and Industrial sectors, as well as stock selection within the Consumer Discretionary sector were positive performance contributors to the fund in the quarter. Stock selection within the Information Technology and Industrial sectors detracted from fund performance.
- » The strongest performing sectors this quarter were Energy, Consumer Discretionary and Health Care while the weakest sectors were Industrial and Financials.
- » We added new positions in Urban Outfitters (lifestyle retail), Nordstrom (department store) and National Beverage (flavored soft drinks) during the second quarter.
- » On the sell side, we took long-term profits in the sale of Masimo and Teleflex after the stocks lost rank in our process, implying lower expected returns. We also sold Palo Alto Networks at a short-term profit based on higher valuation risk and slowing estimated earnings growth.

¹The Fund’s adviser (the “Adviser”) has contractually agreed to waive its management fee and/or reimburse expenses so that total annual operating expenses (excluding (i) interest; (ii) taxes; (iii) brokerage fees and commissions; (iv) other extraordinary expenses not incurred in the ordinary course of the Fund’s business; (v) dividend expenses on short sales; (vi) indirect expenses such as acquired fund fees and expenses; and (vii) expenses incurred under a Rule 12b-1 plan of distribution) do not exceed 1.00% of the Fund’s average daily net assets through December 31, 2019. During any fiscal year that the Investment Advisory Agreement between the Adviser and Capitol Series Trust is in effect, the Adviser may recoup the sum of all fees previously waived or expenses reimbursed during any of the previous three (3) fiscal years, less any reimbursement previously paid, if such recoupment can be achieved within the foregoing expense limits. To the extent that any fees previously waived or expenses previously reimbursed are still recoverable under the expense cap agreement more than three (3) years after the date of the applicable fee waiver or expense reimbursement, the amount of such outstanding potential recoupment shall be booked as a liability of the Fund. This expense cap agreement may be terminated by the Board of Trustees (the “Board”) at any time.

Past performance is no guarantee of future results. The investment return and principal value of an investment in the Funds will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than their original cost.

Investors should carefully consider the investment objectives, risks, charges and expenses of the Meritage Mutual Funds. This and other important information about the Funds is contained in the Prospectus, which can be obtained by calling Shareholder Services at 855.261.0104. The Prospectus should be read carefully before investing.

The Fund may invest in **smaller companies**, which involves additional risks such as limited liquidity and greater volatility. Investments in emerging markets involve greater risks. **Foreign investments**, including **ADRs**, are subject to sovereign risk and may be adversely affected by changes in currency exchange rates, future political and economic developments, and the possible imposition of exchange controls or other foreign governmental laws or restrictions.

The Russell 1000 Growth Index measures the performance of the Russell 1000’s growth segment, which is defined to include firms whose share prices have higher price-to-book ratios and higher expected earnings growth rates.

Given the significant differences between separately managed accounts and mutual funds, investors should consider the differences in expenses, tax implications and the overall objectives between separately managed accounts and mutual funds before investing. Past performance of the strategy/separately managed account is not indicative of future performance of the fund.
