Strategy

The Fund seeks long-term growth of capital, with income as a secondary objective, by investing in companies attractively ranked by the Adviser's comprehensive value-centric ranking process. This process incorporates intrinsic value analysis as well as factors predictive of stock price outperformance: measures of valuation, business momentum, investor sentiment and management IQ. This multivariate approach to valuation expands the "value" universe beyond that used by many traditional value managers, enabling ownership of desirable investments which may be absent from other value strategies.

Manager Commentary

- » The Value Equity Fund outperformed the Russell 1000 Value benchmark for the quarter, producing a strong, positive return.
- » Key positives included stock selection in the Consumer Discretionary and Energy sectors. Stock selection in the Technology sector detracted from performance.
- » The strongest performing sectors this quarter were Health Care, Industrials and Consumer Discretionary while the weakest sectors were Materials and Communication Services.
- » New positions were added in Oshkosh Corp. (design and build of specialty trucks), Synchrony Financial (consumer financial services) and Kulicke & Soffa Industries (semiconductor assembly and packaging).
- » Sales in the quarter included Icon PLC and Synopsis, Inc. which were made to harvest long term gains where we saw a deterioration of rankings. Ross Stores was sold, after a large gain in a short timeframe and the stock had lost ranking in our process, though fundamentals were fine. KLA-Tencor Corp. was sold after the stock lost rank in our process and hit a stop loss mark.

¹The Fund's adviser (the "Adviser") has contractually agreed to waive its management fee and/or reimburse expenses so that total annual operating expenses (excluding (i) interest; (ii) taxes; (iii) brokerage fees and commissions; (iv) other extraordinary expenses not incurred in the ordinary course of the Fund's business; (v) dividend expenses on short sales; (vi) indirect expenses such as acquired fund fees and expenses; and (vii) expenses incurred under a Rule 12b-1 plan of distribution) do not exceed 1.00% of the Fund's average daily net assets through December 31, 2019. During any fiscal year that the Investment Advisory Agreement between the Adviser and Capitol Series Trust is in effect, the Adviser may recoup the sum of all fees previously waived or expenses reimbursed during any of the previous three (3) fiscal years, less any reimbursement previously paid, if such recoupment can be achieved within the foregoing expense limits. To the extent that any fees previously waived or expenses previously reimbursed are still recoverable under the expense cap agreement more than three (3) years after the date of the applicable fee waiver or expense reimbursement, the amount of such outstanding potential recoupment shall be booked as a liability of the Fund. This expense cap agreement may be terminated by the Board of Trustees (the "Board") at any time.

Past performance is no guarantee of future results. The investment return and principal value of an investment in the Funds will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

The Russell 1000 Value Index measures the performance of the Russell 1000's value segment, which is defined to include firms whose share prices have lower price-to-book ratios and lower expected long-term mean earnings growth rates.

Given the significant differences between separately managed accounts and mutual funds, investors should consider the differences in expenses, tax implications and the overall objectives between separately managed accounts and mutual funds before investing.
